

25 REASONS WHY SPRAY SYSTEMS QUALITY IS YOUR BEST CHOICE

QUIET HIGH QUALITY EXHAUST FANS

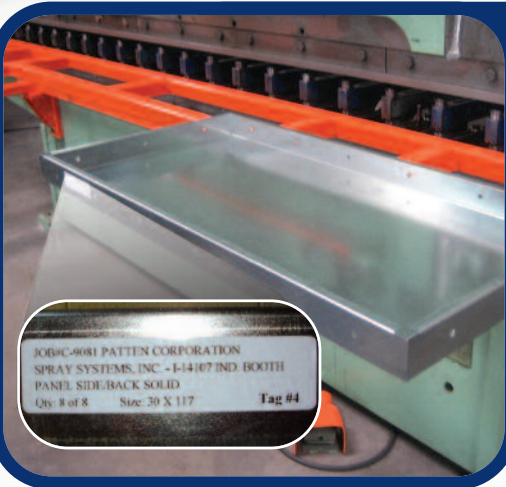

- **Quiet** - Typically operate below 80 dba noise level, well below the 90 dba OSHA limit. Some competitive fans operate as high as 105 dba! We have engineered fans as quiet as 64 dba for custom booths.
- **Efficient** - Computer selected for optimum performance at lowest possible fan blade speed
- **Dependable** - Quality TEFC motor with 5 year warranty
- **Pre-assembled** at factory with motor and drive

QUALITY CONSTRUCTION

- **Precise CNC manufacturing** means precise hole-positioning for easy bolting and panels that fit squarely together
- **Quality appearance** with durable premium grade G-90 galvanized steel
- **Nut and bolt assembly** - not sheet metal screws
- **No sharp edges** to cut hands during assembly

FASTER - EASIER INSTALLATION

- **4-Sided Panel Construction** - Panels with flanges on all four sides mean fewer parts to assemble and eliminates tie-in angles required with two-sided panels
- **Computer generated labels** on every component simplify sorting and speed installation
- **Item numbers on labels** correspond to components on 3-D exploded view drawings
- **Ease of assembly** reduces time and cost of installation

A tradition of excellence for more than 30 years

**SPRAY
SYSTEMS** INC.

INTEGRATED STEEL DESIGN

- *Rigid galvanized, heavy gauge, formed support steel structure*
- *Easily bolts between panel flanges*
- *Provides smooth booth interior*
- *CNC punched to precisely align holes with corresponding panel holes*

QUALITY LIGHTS

- *Light panels with framed openings are designed for bolting fixtures in place*
- *Cost efficient -T-8 type fixtures cut power cost by 20%*
- *4-tube fixtures dispersed evenly for uniformity of light*
- *Hinged panel provides easy accessibility for tube replacement*
- *Industrial Rated*
- *CUL/ETL approved heavy duty construction*

PREMIUM SECURE SHIPPING

- *Fully enclosed and banded crating prevents shipping damage*
- *No missing parts to delay installation*
- *Shipments cross-checked three times to ensure order is complete along with 100% customer satisfaction*
