

# Can't Afford To Buy More Efficient Spray Equipment?

## You Can't Afford Not To!

**See Why Hundreds Of Companies Have Switched To Kremlin Airmix®.  
No Other Spray Equipment Conserves Coatings And Energy Dollars Like Kremlin Airmix®!**

Everyone involved in spray finishing operations has been dealing with increasing costs of paints and solvents, as well as energy rate increases. **Today's economic conditions demand you look for ways to conserve resources and lower your production costs.** Fortunately, there is help available. A Kremlin Airmix® spray system will provide the highest level of finish with the softest, low-velocity atomization available today!

The Airmix® system, when used properly, saves coatings, spray booth filters, and compressed air versus other spraying methods. A normal HVLP spray gun consumes 25 to 35 cubic feet per minute of compressed air and gets about 30-40% transfer efficiency. A Kremlin Airmix® system consumes 4 cubic feet per minute and gets 65-82% transfer efficiency. That's more than twice the mileage in coatings and 1/5 the energy to do it! These are significant, measurable savings that can lower your costs and make you more profitable.

Finishing Consultants is a factory-trained Kremlin Sales & Service Center that has installed and supported hundreds of Kremlin Airmix® systems for **finishing wood, metal, and plastic products with every imaginable brand or type of coating.** Airmix® handles them all!

**Call to arrange a demonstration and evaluation of the Kremlin Airmix® system versus your current equipment.** You will see why hundreds of companies have switched to Kremlin Airmix®. No other spray equipment on the market conserves coatings and energy dollars like Kremlin Airmix®!

**DO THE MATH AND SEE WHY YOU CAN NOT AFFORD NOT TO SWITCH!**

**Price for a Complete System: Pump, Gun, 25' hoses, Cart, Agitator and Spare Parts - \$3,995.00**

System purchase from Finishing Consultants includes all the spare parts that may be required  
This means no additional spare parts cost for the first two years unlike your typical or existing system

**PAYBACK: (Airmix® Monthly Savings Minimum 30% over HVLP Spray guns)**

10 gallons a week at \$25 per gallon = \$250 week x 4.3 weeks month - \$1,075.00 **AIRMIX® SAVES - \$322.50 PER MONTH**

15 gallons a week at \$25 per gallon = \$375 week x 4.3 weeks month - \$1615.00 **AIRMIX® SAVES - \$484.50 PER MONTH**

20 gallons a week at \$25 per gallon = \$500 week x 4.3 weeks month - \$2,150.00 **AIRMIX® SAVES - \$645.00 PER MONTH**

### **OTHER BENEFITS:**

25% to 50% faster application speed resulting in increase labor efficiency! **MORE FINISHED PRODUCTION, LESS LABOR!**

Airmix® is easy to use, less skilled employees can produce fine finishes!, **LOWER COST WITH LABOR CONSOLIDATION!**

New equipment provides reliable service compared to old system! **MONEY WASTED REPAIRING OLD EQUIPMENT?**

**Kremlin Airmix® provides truly  
Green Finishing**

### **Benefits of Airmix® Spraying:**

**Better Atomization & Finish  
Quality**

**80% Reduction of compressed air**

**30% to 50% reduction in material**

**Increased Working Speed**

**Call to arrange a free demonstration and evaluation  
of the Kremlin Airmix® system**
