

# DURATECH AUTOMATIC POWDER COATING BOOTH

## DURABILITY MEETS VERSATILITY

### Wagner's DuraTech Automatic Powder Coating Booth

combines strength, safety and quick cleaning capability. Canopy construction has polymers that are U.L. flame-rated and have high impact resistance. Recovery options include cartridge collection modules, cyclone module collection, or both collection packages, providing the ultimate in versatility.

DuraTech is truly a first-class industrial automatic powder coating booth, designed to be easily tailored to your specific requirements. Since we manufacture and design in our own facility, we have the flexibility to design and build one just for you.

The variety of DuraTech powder delivery and reclamation systems are as diverse as our customer's requirements. The cartridge collection with integrated, fluidized powder feed hopper provides extremely efficient powder usage. The cyclone collection and powder feed center with integrated vibratory sieve is a fast color change system.

Wagner Systems' Chicago facility has a state-of-the-art testing laboratory for product demonstration and coatings consultation. We invite you to contact us for a product demonstration of the latest Wagner Systems technologies and solutions, which have been designed for today's demanding powder coating applications.

## FEATURES AND BENEFITS

### White Polymer Canopy Walls

- Reduces powder deposition on walls
- Enhances transfer efficiency
- Decreases cleaning time
- Fire-safe U.L. flame-rated polymer
- Durable, high impact resistance polymer
- Strong welded construction
- Reflects booth lighting

### Transparent Gambrel Roof

- Allows additional ambient light in
- Enhances "wrap" on top of workpiece
- Optimizes airflow

### Reinforced Stainless Steel Floor

- Provides excellent electrical ground
- No annoying flex when walked on
- Withstands huge impact loads

### Light Fixtures Included

- One (1) roof-mounted above each automatic station
- One (1) roof-mounted above each manual station
- Two (2) wall-mounted flanking each manual station
- Provides excellent illumination

### Collection Package

- Top-to-bottom side draw to ensure consistent coating from the top of the part to the bottom

## OPTIONAL ACCESSORIES

- Cyclone module collection package
- Powder center
- Vibratory sieve
- Additional cartridge collectors
- External polymer hoppers
- Roll-on/roll-off carriage
