warranty on  
diaphragm pump

**375510 CLOSED-LOOP  
COMBO SYSTEM - GWMA-SR30**

- ✓ The New ECO WASH Paint Equipment Washing Systems are specifically designed to quickly and thoroughly clean the interior & exterior of paint guns and accessories with any type of paint.
- ✓ Automatic or Manual systems are specially designed to help you save time and solvent with a professional cleaning result.
- ✓ Cleans most type of spray guns (gravity, siphon feed and electrostatic models), cups, pressure tanks, paint hoses and other paint equipment accessories.
- ✓ Clean one or two guns & cups automatically and simultaneously while you tend to other work.
- ✓ User can choose from automatic systems or manual systems, therefore reducing unproductive downtime required to wash painting equipment.
- ✓ A ventury system designed to control and eliminate harmful vapors can be installed on the unit. The system complies with or exceeds international safety standards.
- ✓ ECO paint gun washers have been develop with paint manufacturers & are rigorously tested, making the ECO WASH unit one of the most reliable and easy to use on the market.
- ✓ ECO gun washers are supported by the industry's best warranty - two (2) years on all components and on the pressure pumps.
- ✓ All gun washers can be connected to an optional charcoal filter to lower VOC's (Volatile Organic Compound) on the exhaust system.
- ✓ When combined with an ECO Solvent recycler, the waste solvent can be reduced by 90% or more. Also It can be equipped with the ECO's exclusive "Closed-Loop®" system, thereby totally eliminating solvent containers and handling.
- ✓ ECO WASH Option available to utilize system with environmentally (EPA) approved solvents.

## It's all about improving your productivity, finishing quality, saving money and preserving the environment.

In today's environment, industrial manufacturers know the meaning of efficiency, reduced cycle time and variable cost reduction. ECO has created the finest system for handling your paint shop's clean-up needs by designing a complete line of products to meet every challenge. All backed by ECO CARE TST™ (Technical Sales Team), a national distributor network of factory trained and certified local experts for your sales, installation, training, service and environmental peace of mind. No other company can offer you this level of professional service and advice.

**GWA 200**

The basic choice of professional spray gun cleaning technology. This economical design is offered in 3 different models: manual cleaning, automatic cleaning or both manual & automatic. Manual cleaning is always the best way to clean the guns perfectly. Automatic hands-free cleaning allows for other tasks to be done while the unit is working for you.

### Performance features include...

- ✓ 1 or 2 spray gun cleaning capacity
- ✓ 1st cycle pre-clean with USED solvent
- ✓ 2nd cycle final rinse "clean-solvent only"
- ✓ 1 diaphragm pneumatic pump
- ✓ Compact size ideal for space-limited areas

### Option:

- ✓ Manual flow-thru brush
- ✓ Fume extractor option with duct opening of 3" to exhaust harmful fumes and odors (VOCs)

**GWM 300**

If clean is what you want, this unit will do the job. Manual cleaning is by far the best way to clean paint equipment and mixing tools. Disassemble the air cap, needle, cup, etc., and the hand-held solvent flow brush wipes away paint residue from all accessible surfaces. Internal spray gun cleaning is even easier with the ECO Manual Spray Out.

### Performance features include...

- ✓ Hand held solvent flow thru brush
- ✓ (1) Diaphragm pneumatic pump
- ✓ Air pressure regulator with gauge
- ✓ Fume extractor duct opening of 6" to exhaust larger quantities of harmful fumes and odors (VOC's)

**GWM 500**

ECO's finest fully equipped spray gun cleaning workstation. This workstation combines the easy to use "hands-free" system with the superior cleaning capabilities of the Manual Spray.

### Performance features include...

- ✓ Hands free automatic cleaning basin, (2) spray gun capacity and "Clean-solvent" only final rinse cycle
- ✓ Hand held solvent flowing cleaning brush
- ✓ (2) Diaphragm pneumatic pumps
- ✓ External pressure regulator with gauge
- ✓ Fume extractor duct opening of 6" to exhaust larger quantities of harmful fumes and odors (VOC's)

## SOLVENT RECYCLER COMBO OPTIONS

ECO Paint Gun Washer can all be used in combination with the ECO SR 30 Solvent Recycler series and thereby significantly reduce solvent consumption and cleaning downtime periods.

375200

**GWM 300 COMBO**

Manual Gun wash & SR30 recycler  
375300

**GWMA 500 COMBO**

Manual & Automatic Gun wash & SR30 recycler  
375500

Medium to large shops with 7 or more refinish jobs per day. Additionally, two (2) separate ECO spray gun cleaning units can be attached to a single Next Generation Solvent Recycler for added efficiency and cost savings. Maximum solvent recycling rate is 112 gallons (450 litres) / 5 day week, running 3 cycles per day.\*

**ECO AS THE RIGHT SOLUTION FOR CLEANING YOUR PAINT GUNS AND ACCESSORIES FOR SOLVENT BASED PAINTS**

Since the introduction of the first ECO gun cleaner system, we have been a leader in the development of spray gun cleaners. With our very broad product range, you are sure to find an ECO WASH gun cleaner that suits your needs.

**RELIABLE AND DURABLE**

The environment in which a gun cleaner operates requires components with special features. Therefore, we have developed an unequalled range of reliable, durable components, specifically designed for gun cleaners. All our gun cleaners meet the latest regulations and offer the greatest possible safety.

**UNBEATABLE WASH POWER**

Our unbeatable wash power is made possible with the unique ECO pump and special ECO spray nozzles. A perfectly clean spray gun is essential for doing the next spray job.

**ENVIRONMENTALLY FRIENDLY**

All gun cleaners are designed with the aim of reducing environmental impact and offering the best working environment for the user. ECO WASH gun cleaners are recognized for their functionality and user friendliness.

**A BETTER INVESTMENT**

The efficient use of recirculating solvent and clean rinse saves time and solvent. This, together with the unparalleled reliability and durability, makes ECO WASH equipment the top choice.

ECO WASH gun cleaner will last for years and years and it's an investment that will increase your profitability!

**ECO PUMP**

The ECO WASH includes a Diaphragm pump, which has a limited warranty of two years.

**CLOSED-LOOP SYSTEM**

The clean and used solvents are gathered in two separate collecting tanks that can be conveniently stored under the cleaning basin.

## QUALITY PRODUCTS & LEADING TECHNOLOGY

### ABOUT ECO

Founded in 1978, IST Canablast is a North American leader in solvent recycling systems, paint gun washer, industrial cleaning equipment and sandblasting systems. In 2002, the ECO products were introduced for recycling and cleaning many types of solvents in body shop repairs and in many industrial applications. The company's success is based on its unwavering commitment to technical excellence, world-class manufacturing and unparalleled customer service. Working closely with qualified distributors and paint manufacturers, ECO offers systems, products and technology that set the quality standard in a wide range of cleaning and recycling solutions. ECO provides equipment for a wide range of industries for cleaning their paint equipment including the automotive and industrial solvent recycler series that minimizes solvent usage and disposal. ECO'S ongoing investment in paint gun cleaning, solvent recycling, industrial cleaning and sandblasting systems will continue to provide innovative solutions to a diverse global market.
