WHY CHOOSE SPRAY SYSTEMS?

FINISHING CONSULTANTS

EFFICIENT EQUIPMENT SOLUTIONS

We Have A Long Standing Relationship At Spray Systems

We have been working with Spray Systems for Over 15 Years and never worked with a more reliable supplier!

***They Build Booths The Right
Way
For All The Right Reasons***

Who is *Spray Systems* ?

- Founded in 1977— 30 years of proven experience
- Their business focus is designing and manufacturing spray booths and major components for industrial finishing systems for customers all over the world

Choosing *Spray Systems Means:*

- **Exactly the Right Product** to Fit Your Needs
- **Experienced Engineering**
- **Local Distributor Support**
Assistance with booth design selection,
regulatory codes and installation
- **Premium Materials** For Durability

Spray Systems Also Means:

- **Highest Quality Components** for Reliability
- **Faster installation** – and lower cost
- **On-time shipment** – guaranteed!
- *SSI Premium SecureTM crating*
- **Personal customer service**

Spray Systems Packages It Right

- Every Booth is Custom Crated in a Fully Enclosed Plywood Crate, Banded with Steel Strapping. This Ensures You Do Not Receive Damaged Goods.
- Larger Orders Are Carefully Hand Loaded onto to Trucks

Quality CNC Fabrication

- Very close tolerances
- No sharp edges
- Fast response

Industrial Quality Light Fixtures

- 20% Less Energy
- Hinged Panel for Easy Maintenance
- Standard Powder Coating Inside and Out On All Fixtures
- Engineered Light Levels for Great Visibility In the Booth

Uniform Light Dispersion

Spray Systems: Quietest Fans

- **Quiet**

Usually 70 to 75 dba

That Means you can carry on a conversation with out yelling all day to talk over the booth noise.

- **Factory Assembled**

Speeds installation

- **5-Year Warranty Motors**

Genuine Lincoln Quality

Spray Systems Engineering: Fan And Motor Design

- Every Booth is Engineered For The Proper Air Flows
- Every Fan Is Custom Made For The Right Pitch, Angle, Velocity, RPM, and Sound Decibels
- Fail Safe Features Like Double Drive Belts

From Standard Industrial Booths

Always Available With Innovative Custom Designs To Accommodate Your Special Needs

To a Variety of Large Booths

- **Cross-draft Style**
- **Down-draft Style**
- **Modified (Side) Down-Draft Style**
- **Semi-down-draft Style**
- **Spray and Bake Booths**
and more
- **Custom Transitions And Duct Work Design**

Installer Comments:

- *“Over the past 5 years we have installed over 50 of your custom engineered products and with SSI booths everything fits. Bolt holes line up, panels are correct size, door openings are square and the adjustable floor angles are a brilliant idea. When we are finished with the installation, Spray Systems booths have that fit and finish we look for”.*

User Comments

- “Our painters rave about these booths and we’ve achieved better quality finishes than ever before”

B.F. Goodrich Aerospace

- “Our experience has been totally satisfactory: the air flow is great, the booth is quieter than others in our plant, hardly any maintenance required and we’re achieving excellent finish quality” Better yet, the whole transaction was handled quickly and smoothly!”

Ethan Allen, Inc.

- “**Monaco Coach** in Oregon and Indiana wouldn’t buy spray booths from anyone else. You can’t beat Spray Systems quality”

Monaco Coach
