

FC FINISHING CONSULTANTS

EFFICIENT EQUIPMENT SOLUTIONS®

FACTORY-CERTIFIED TECHNICAL SERVICES

DECADES OF EXPERIENCE

SERVING AND SUPPORTING OUR MANUFACTURING CUSTOMERS FOR OVER 32 YEARS!

Finishing Consultants has been providing customer-focused, **Efficient Equipment Solutions®** to manufacturers throughout the Western U.S. since 1991, which includes our FC Factory-Trained and Certified Technical Services Team ensuring a positive experience for customers.

From installation to startup to after-sale support and troubleshooting, FC Technical Services is proficient with products of all our Premier Equipment Manufacturers.

Whether it be powder or paint application, two-component metering, electrostatic spraying, abrasive blasting, dust and weld-smoke collection, or solvent recycling, the FC team has the knowledge, products, and customer service to provide the best-value proposition for your requirement.

PROJECT MANAGEMENT

When you purchase a system from FC you get a dedicated Project Manager providing coordination of customers, subcontractors, and equipment manufacturers throughout the project, resulting in optimum communication and efficiency, as well as reliable oversight to come to a timely and successful completion.

HANDS-ON TRAINING, INSTALL & SUPPORT

Once installed, FC Technical Services provides on-site technical training for your operators, and long-term operational support for your maintenance and repair departments.

Optimize your paint finishing process, reduce paint and solvent waste, increase labor productivity, and improve your finish quality - **FC is here for you!**
