Jeff LaSorella
Finishing Consultants
720 132nd Street SW #201
Everett, WA 98204

Dear Jeff:

Now that the installation of the new Kremlin equipment is completed at our facility, I wanted to drop a quick note about our overall pleasure of working with Finishing Consultants. Our transition to a new Cefla Stain Line with Kremlin A26HT1 guns and color changer, converting our Cefla UV line to Kremlin ATX guns/ flowmax pumps and replacing the GRACO P-MIX with a Kremlin Cyclomix PH system has increased our production and profitability. We can see significant savings in coatings and equipment reliability.

We feel it was a valuable investment to work with Finishing Consultants. We are excited about working with your company on future projects and appreciate the high level of customer service provided by your team of technical service specialists and in house support. Your company is continually working on ways to provide us with efficient equipment solutions and environmentally friendly products.

Again, thank you for your helpful guidance and knowledge throughout our company growth and expansion. It is great working with Finishing Consultants as our primary finish equipment vendor.

Sincerely,

Dave Meier
